

Our Mission

HPC provides case management solutions to support self-sufficiency and stability in our community of the Lower and Outer Cape.

How HPC Helps:

- We initiate new programs that provide life-changing services.
- We ensure client success through long-term partnerships.
- We offer case management outreach hours and locations.
- We work with clients to advocate for emerging community needs.

2019 IMPACT REPORT

**Proudly serving the
eight towns of the Lower
and Outer Cape since 1991**

Community Impact

• RESIDENT SERVICES

Working with local affordable housing providers and their residents, HPC fosters healthy tenancies to ensure that residents maintain their housing. This helps us prevent homelessness.

• COMMUNITY OUTREACH

HPC offers additional case management services in the community through our expanded community outreach hours. Held in multiple locations, we strive to help new and existing clients reach us more easily.

• LOCAL COMMITMENT

Our supporters, volunteers, and community partners provide financial support and countless volunteer hours. This support allowed the Adopt-a-Family and Backpack-to-School programs to serve 457 children from 217 families.

• REACH PROJECT

The pioneering work of the REACH Project helps clients become more self-sufficient.

Participants chart their path to success through mindfulness practice, individualized coaching and goal setting.

Our 2019 REACH Project Graduates

Client Stories

DENISE*

Denise and her mother currently live in substandard housing on the Lower Cape. Denise works part-time and also commutes to Cape Cod Community College, where she has been on the Dean's List for three semesters. In their attempt to find sustainable housing on the Lower Cape, Denise attended an HPC community outreach session. Through this outreach, Denise and her mother are now working with our case management team to find a safe and stable home to call their own. Also, through her introduction to HPC, Denise is also participating in our REACH Project and plans to utilize her program stipend to assist in paying for her studies while improving her resiliency and self-sufficiency.

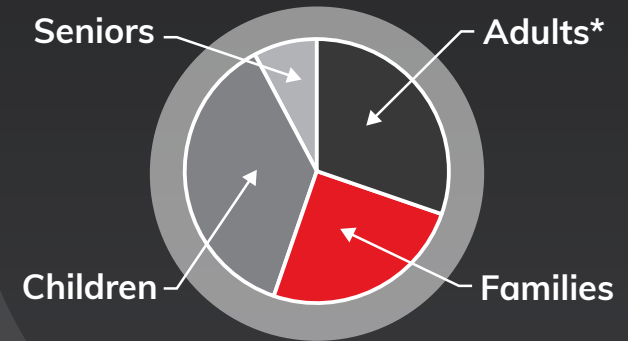

KEVIN*

Kevin, a Cape native and 40-year-old man with autism, lived with his mother for many years. Recently, it became clear his mother could no longer care for him. With his driven attitude to find a new home, he worked alongside an HPC case manager and his case worker from Cape Abilities to complete the necessary and complicated housing applications. Through his determination and the support of HPC's case management program, Kevin has found a new local home that allows him greater independence and the convenience of walking to his job everyday.
